**NOTICE OF UNITED STATES POSTAL SERVICE OF FILING A
FUNCTIONALLY EQUIVALENT GLOBAL RESELLER EXPEDITED PACKAGE 2
NEGOTIATED SERVICE AGREEMENT AND APPLICATION FOR
NON-PUBLIC TREATMENT OF MATERIALS FILED UNDER SEAL**
(November 5, 2021)

In accordance with 39 C.F.R. § 3035.105 and Order No. 1746,¹ the United States Postal Service (Postal Service) hereby gives notice that it is entering into a Global Reseller Expedited Package 2 (GREP 2) contract.

Prices and classifications not of general applicability for the GREP 2 contract product were previously established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Global Reseller Expedited Package Contracts, issued March 24, 2010 (Governors' Decision No. 10-1).²

In Order No. 1746, the Postal Regulatory Commission (Commission) granted the Postal Service's request to add a new product identified as GREP 2 to the competitive

² Governors' Decision No. 10-1 was filed under seal on March 29, 2010, and a redacted copy of Governors' Decision No. 10-1 was included as Attachment 2 to Request of the United States Postal Service to Add Global Reseller Expedited Package Contracts to the Competitive Products List, and Notice of Filing (Under Seal) of Contract and Enabling Governors' Decision, Docket Nos. MC2010-21 and CP2010-36, March 29, 2010, available at <http://prc.gov/Docs/67/67351/MC2010-21%20Global%20Resellers%20Request.pdf>.

product list. The Commission determined that individual contracts may be included as part of the GREP 2 product if they meet the requirements of 39 U.S.C. § 3633 and if they are functionally equivalent to the GREP 2 baseline agreement, which is the contract filed in Docket Nos. MC2013-51, and CP2013-64.³ Thereafter, the Commission included a number of individual contracts within the Global Reseller Expedited Contracts 2 (MC2013-51) product.

The Postal Service hereby requests that the Commission add the agreement that is the subject of this docket to the GREP 2 contract product. The contract and supporting documents establishing compliance with 39 U.S.C. § 3633 and 39 C.F.R. § 3035.105 are being filed separately under seal with the Commission. Redacted copies of the contract, certified statement required by 39 C.F.R. § 3035.105(c)(2) for the contract, and Governors' Decision No. 19-1 are filed as Attachments 1, 2, and 3, respectively. Attachment 4 to this Notice is the Postal Service's Application for Non-public Treatment of materials filed under seal in this docket. A full discussion of the required elements of the application appears in Attachment 4. Redacted versions of the supporting financial documentation for the GREP 2 contract that is the subject of this docket are included with this filing in separate Excel files.

I. Background

The first GREP 2 contract was filed on March 29, 2010.⁴ The Postal Service demonstrates below that the agreement that is included with this filing is functionally

³ PRC Order No. 1746, at 8.

⁴ Request of the United States Postal Service to Add Global Reseller Expedited Contracts to the Competitive Products List and Notice of Filing (Under Seal) of Contract and Enabling Governors' Decision, Docket Nos. MC2010-21 and CP2010-36, March 29, 2010.

equivalent to the contract that is the subject of Docket No. CP2013-64 (GREP 2 baseline agreement). Accordingly, this contract should be included within the GREP 2 product.

II. Identification of the Additional GREP 2 Contract

The Postal Service submits that this additional GREP contract fits within the Mail Classification Schedule (MCS) language that concerns the GREP product grouping, as revised and updated in the most recent draft working copy of the MCS available on the Commission's website.⁵

The Postal Service will establish the effective date of the contract that is the subject of this filing once the Commission completes its review. If the effective date of the agreement is the first of the month, the agreement that is the subject of this docket is set to expire one year after its effective date, unless the agreement is terminated sooner pursuant to Article 12, Article 13, or Article 35. If the effective date of the agreement is not the first of the month, the agreement is set to expire on the last day of the month in which the effective date falls in the year subsequent to the effective date, unless the agreement is terminated sooner pursuant to Article 12, Article 13, or Article 35.

III. Functional Equivalency of GREP 2 Contracts

This GREP 2 contract is substantially similar to the GREP 2 baseline agreement. The contract shares similar cost and market characteristics with the GREP 2 baseline agreement. In Governors' Decision No. 19-1, the Governors established prices for Outbound International Competitive Agreements that meet the criteria of 39 U.S.C. §

⁵ See PRC, (Draft) Mail Classification Schedule, posted October 3, 2021, available at <http://www.prc.gov/mail-classification-schedule>, at 508-513.

3633 and the regulations promulgated thereunder. Therefore, the costs of each contract confirm to a common description. In addition, the MCS requires that each GREP contract must cover its attributable costs. The contract at issue here meets the Governors' criteria and thus exhibits similar cost and market characteristics to previous GREP contracts.

The functional terms of the contract at issue are the same as those of the GREP 2 baseline agreement. The benefits of the contract to the Postal Service are comparable as well. Therefore, the Postal Service submits that the contract is functionally equivalent to the GREP 2 baseline agreement and should be added to the competitive product list as a GREP 2 contract.

In a concrete sense as well, this GREP contract shares the same cost and market characteristics as the GREP 2 baseline contract. Customers for GREP 2 contracts are resellers that market Priority Mail Express International and Priority Mail International, and/or First-Class Package International Service at discounted prices to their customers, especially small- or medium-sized businesses. Prices offered under the contracts may differ depending on the postage commitments made by the customers. Prices also may differ depending upon when the agreement is signed, due to the incorporation of updated costing information. These differences, however, do not alter the contracts' functional equivalency. Because the agreement incorporates the same cost attributes and methodology, the relevant characteristics of this GREP contract are similar, if not the same, as the relevant characteristics of the GREP 2 baseline agreement.

Like the GREP 2 baseline agreement, this contract also fits within the parameters outlined by Governors' Decision No. 19-1. There are, however, differences between this contract and the GREP baseline agreement, which include:

- The name of the customer in the title, the name and address of the customer in the first paragraph, the name of the customer in the footer of each page of the agreement and its annexes, and the name of the customer in the signature page;
- The deletion of two "Whereas" clauses;
- In Article 1 and subsequent articles, "Express Mail International" has been replaced with "Priority Mail Express International";
- In Article 2, paragraph (3), a minor revision to the definition of "Effective Date";
- In Article 2, paragraph (7), a definition of "Reseller's Designated Customers" has been replaced with a definition for "Reseller's Customers" and the term "Reseller's Customers" is used throughout the agreement;
- A definition of "USPS Price List" has been added to Article 2, paragraph (8);
- A revised definition of Qualifying Mail in Article 3, which excludes Priority Mail Express International Flat-Rate items and Priority Mail International Flat-Rate items, as well as items destined to certain countries, addressed to certain persons, or tendered on behalf of certain third parties or entities;
- A revised Article 4 concerning Non-Qualifying Mail has been replaced with a different Article 4 that has the title "Reseller's Customers";

- In Article 5, paragraph (2) and some subsequent articles, the option of postage payment through the Electronic Verification System (eVS) is mentioned;
- A slightly revised summary of the Postal Service's obligations to seek non-public treatment of certain information, in Article 5, paragraph (3);
- An additional Article 5, paragraph (4), which concerns Non-Qualifying Mail;
- In Article 6, an additional paragraph (1) which resulted in the renumbering of subsequent paragraphs;
- Revisions to Article 6, paragraphs (2) and (3);
- Revised Article 6, paragraphs (4) and (5) concerning advance notification and tender;
- Revisions to Article 6, paragraphs (6) and (7) concerning customs, export and other requirements;
- A revised Article 6, paragraph (8) concerning software and an additional paragraph (9) concerning data transmission, which caused the renumbering of subsequent paragraphs;
- A slightly revised Article 6, paragraph (12) concerning confidentiality;
- In Article 6, a revised paragraph (16) concerning penalties, and additional paragraphs (17), (18) and (19);
- Revisions to Article 7 concerning postage updates;
- The negotiated minimum revenue commitment included in Article 8;

- In Article 8, the revision of paragraph (2) and deletion of paragraph (3) concerning the periodic review of the Reseller's progress toward achieving the annualized minimum commitment set forth in Article 8;
- A revised Article 11 concerning the term of the agreement;
- A revised Article 12 concerning termination of the agreement;
- A revised Article 14, which concerns entire agreement and the survival of obligations;
- A revision to the reference in Article 16, to Commission docket numbers concerning the Annual Compliance Report, in which the Postal Service may file confidential information related to this agreement, and an additional paragraph (2);
- A revision to Article 20 that concerns suspensions of mail service;
- A revised Article 21 concerning assignment;
- The renumbering of Article 24 of the GREP 2 baseline agreement as Article 23, and revision of that article;
- The renumbering of Article 23 of the GREP 2 baseline agreement as Article 24, and revision of that article;
- Minor revisions to Article 25 concerning paragraph headings and reference citations;
- The renumbering of Article 28 of the GREP 2 baseline agreement as Article 27;

- The renumbering of Article 27 of the GREP 2 baseline agreement as Article 28, and the identification of the customer's representative to receive notices under the agreement and addition of paragraph (2);
- A revised Article 31 concerning the Postal Service soliciting sales;
- A revised Article 32 concerning intellectual property, co-branding and licensing;
- A revised Article 33 concerning limitation of liability;
- Revisions to Article 34 concerning warranties, representations, and covenants;
- Additional Articles 35, 36, and 37 concerning sovereign acts, as well as record keeping and audit, and the expiration of agreement rates;
- The identity of the signatory to the agreement; and
- Revised Annexes to the agreement.

The Postal Service does not consider that the specified differences affect either the fundamental service the Postal Service is offering or the fundamental structure of the contract. Nothing detracts from the conclusion that this agreement is “functionally equivalent in all pertinent respects”⁶ to the GREP 2 baseline agreement.

Conclusion

For the reasons discussed, and as demonstrated by the financial data filed under seal, the Postal Service has established that this GREP 2 contract is in compliance with the requirements of 39 U.S.C. § 3633. In addition, the contract is functionally equivalent

⁶ See PRC Order No. 85, Order Concerning Global Plus Negotiated Service Agreements, Docket Nos. CP2008-8, CP2008-9, and CP2008-10, June 27, 2008, at 8.

to the GREP 2 baseline agreement. Accordingly, the contract should be added to the GREP 2 product grouping.

The Reseller shall notify the Reseller's Customers that there is no service guarantee for mail tendered to the USPS at the discounted prices provided through this Agreement.

10. Customs Duties and Taxes. Customs duties and taxes for packages mailed under this Agreement are the responsibility of the addressee. The Reseller shall notify the Reseller's Customers that Customs duties and taxes for packages mailed under this Agreement are the responsibility of the addressee.

11. Term of the Agreement. 12. Termination of the Agreement. (1) Either Party to this Agreement, in its sole discretion, may terminate the Agreement for any reason, without cost, fault, or penalty, regardless of whether either Party is in default, upon a thirty (30) day written notification, unless a time frame longer than thirty (30) days that falls within the term of the Agreement is indicated by the

terminating Party. (2) If the Reseller is not in compliance with this Agreement, USPS will have the right to immediately terminate or suspend performance under this Agreement. (3) In the event that this Agreement is terminated for any reason before the termination date provided for in Article 11 (including for the reasons and under the terms set forth in Article 35), any penalties arising under Articles 6 and 26, or any other article of this Agreement, shall be enforceable, and the minimum commitment in Article 8 shall be calculated on a pro rata basis to reflect the actual duration of the Agreement. (4) In the event of early termination under this Article, the Reseller shall notify its PC Postage Provider(s) and the Resellers' Customers of the date the discounted prices will no longer be available to them through this Agreement. (5) The USPS is under no obligation to remind the Reseller of the termination of this Agreement. In addition, the USPS is under no obligation to enter into a subsequent agreement with the Reseller. (2) Modifications may be contingent upon any and all necessary approvals by USPS management's executive committee, the Board of Governors of the USPS, the Governors of the USPS, the Postal Regulatory Commission, and/or any other governmental body with oversight responsibility for the USPS. (3) If such approvals are required, the modifications will not become effective until such time as all necessary approvals are obtained. (4) The USPS will notify the Reseller of the date the modification becomes effective within thirty (30) days after receiving the approval of the entities that have oversight responsibility for the USPS. (5) The USPS shall have no obligation to notify the Reseller of the status of the approval process or of potential fulfillment of the approval process.

14. Entire Agreement and Survival of Obligations. (1) This Agreement, including all Annexes thereto, shall constitute the entire agreement between the Parties regarding Priority Mail Express International Qualifying Mail, Priority Mail International Qualifying Mail, and First-Class Package International Service Qualifying Mail as defined in Article 3 of this Agreement. (2) The obligations of the Parties with respect to confidentiality, as provided for in Article 5, Paragraph 3; Article 6, Paragraph 12; and Article 16 will expire ten (10) years from the date of termination or expiration of this Agreement. (3) The obligations of the Parties with respect to notice and payment of postage due, as provided for in Article 5, Paragraph 2, and Article 6, Paragraph 11, will expire ninety (90) days from the date of termination or expiration of this agreement. (4) The Reseller is responsible for any remaining obligations under any Reseller agreement between the Reseller and USPS. (5) With the exception of the Agreement mentioned in Article 14, Paragraph 4 above, any prior understanding or representation of any kind preceding the date of this Agreement regarding Priority Mail Express International, Priority Mail International, and First-Class Package International Service shall not be binding upon either Party except to the extent incorporated in this Agreement.

15. Force Majeure. Neither Party shall be liable for its failure to perform under the terms of this Agreement due to any contingency beyond its reasonable control, including acts of God, fires, floods, wars, sabotage, accidents, pandemics impacting service, labor disputes or shortages; governmental laws, ordinances, rules and regulations, whether valid or invalid; court orders whether valid or invalid; inability to obtain material, equipment or transportation; and any other similar or different contingency.

16. Confidentiality. (1) The Reseller acknowledges that as part of securing approval of this Agreement, and in other subsequent regulatory filings, the Agreement and supporting documentation will be filed with the Postal Regulatory Commission ("Commission") in a docketed proceeding. [REDACTED]

[REDACTED] The Reseller further understands that any unredacted portion of the Agreement or supporting information will be available on the Commission's public website, www.prc.gov. In addition, the USPS may be required to file information in connection with this Agreement (including revenue, cost, or volume data) in other Commission dockets, including the Commission docket number for the Annual Compliance Report (ACR) for the USPS fiscal year(s) in which this Agreement is in effect. Each ACR docket has a distinct docket number, such as ACR202#, in which "202#" signifies the USPS fiscal year to which the ACR pertains. The Reseller has the right, in accordance with the Commission's rules, to address its confidentiality concerns directly with the Commission. The procedure for making an application to the Commission for non-public treatment of materials believed to be protected from disclosure is found in part 3011 of the regulations concerning the Commission in Title 39 of the Code of Federal Regulations. (2) The Reseller hereby acknowledges and agrees that the form, substance, and timing of any press release or other public disclosure of matters related to this Agreement or the relationship between Reseller and the USPS prepared and/or to be disclosed by Reseller shall be subject to the prior review and written approval of the USPS. The USPS shall endeavor to respond to the Customer with written comments or written approval within five (5) business days of receipt of the proposed disclosure, but failure to approve in writing within that time frame shall be deemed disapproval. state, or local governmental body in the proper exercise of its oversight or investigatory jurisdiction.

17. Effect of Partial Invalidity. The invalidity of any portion of this Agreement will not and shall not be deemed to affect the validity of any other provision. In the event that any provision of this Agreement is held to be invalid, the Parties agree that the remaining provisions shall be deemed to be in full force and effect.

18. Indemnity.

19. Governing Law. This Agreement shall be governed by, construed, and enforced in accordance with United States federal law.

20. Suspensions of Mail Service. In the event that USPS announces a suspension of Priority Mail Express International, Priority Mail International, or First-Class Package International Service from the United States to a country, which would prevent delivery of Qualifying Mail to addressees in that country, the Reseller shall notify the Reseller's Customers not to tender Priority Mail Express International, Priority Mail International, or First-Class Package International Service, as appropriate, to the USPS until service is restored.

21. Assignment. Neither Party may, or shall have the power to, assign its rights under this Agreement or, delegate its obligations hereunder, without the prior consent of the other; such consent is not to be unreasonably withheld. In addition, in the event that the Reseller is merged with or into or acquires another firm, corporation, or entity, pricing under this Agreement following such merger or acquisition shall apply only to mail sent by the entity existing prior to the merger or acquisition. Following any such merger or acquisition, the parties may negotiate in good faith to extend, modify or enter into a new Agreement applicable to the merged or acquired entity. Assignment by the Reseller to a subsidiary or the Reseller for which the Reseller is the majority owner shall be allowed.

22. No Waiver. The failure of either Party to this Agreement to insist upon the performance of any of the terms and conditions of this Agreement, or the waiver of any breach of the terms and conditions of this Agreement, shall not be construed as thereafter waiving any such terms and conditions, but these shall continue and remain in full force and effect as if such forbearance or waiver had not occurred.

23. Conditions Precedent. (1) The Parties acknowledge and understand that all obligations of the USPS under this Agreement, including the prices listed in the Annexes thereto, shall be contingent upon the USPS receiving approvals hereinafter ("Conditions Precedent") from one or more internal and external bodies that have oversight responsibilities. Conditions Precedent may include, but are not limited to: approvals or, if applicable, non-objection, from responsible USPS management officials, the USPS Board of Governors, the USPS Governors, the Postal Regulatory Commission, and/or any other governmental body with oversight responsibility for the USPS. The Parties acknowledge that the Agreement may not be approved by such bodies. Until such time that all Conditions Precedent are fulfilled that are necessary to allow the Postal Service to provide the products or services contemplated under the Agreement, no obligation shall exist for and no benefit shall inure to either Party. (2) In the event that the Conditions Precedent are not fulfilled, the USPS shall have no liability, which shall include no obligation to pay costs associated with any action taken by the Reseller prior to the Effective Date of the Agreement. Further, in the event of termination of the Agreement or the failure of any Condition Precedent, the USPS shall not be held liable for any damages including, without limitation, actual; special; indirect; incidental; punitive; consequential, or any other damages, which shall include but not be limited to damages for loss of business profits; business interruption; any other loss; and/or for costs incurred by either Party attributable to such non-approval, such as attorney's fees. (3) The prices listed in the Annexes to this Agreement are contingent upon any and all necessary approvals for corresponding USPS prices by the USPS Governors, the USPS Board of Governors, and/or the United States Postal Regulatory Commission.

24. Mailability, Exportability, and Importability. (1) All items mailed under this Agreement must conform to the mailability requirements of the USPS as detailed in the IMM 130 and USPS Publication 52; all applicable United States laws and regulations, including export control and customs laws and regulations; and all applicable importation restrictions of the destination countries. For each item mailed under this Agreement, the Reseller is responsible for notifying the Reseller's Customers of their responsibility for determining export and import requirements, obtaining any required licenses and permits, and ensuring that the recipient of the item is authorized by the laws of the United States as well as destination countries to receive the item, and for the exportation and importation status of the products mailed under this Agreement as detailed in IMM 112. (2) The Reseller is responsible for ensuring that no item mailed under this Agreement includes non-mailable dangerous goods. Internationally mailable dangerous goods include only certain biological substances, certain radioactive materials, and small lithium batteries packaged in the devices they are meant to operate, as described in greater detail in IMM 135. Hazardous materials listed within the Department of Transportation's regulations, including at 49 C.F.R. §

172.101, are known as dangerous goods that are prohibited from all international mail, as set forth in Exhibit 331 of USPS Publication 52. These substances and items are in addition to any prohibitions or restrictions on imports that may be found in the Individual Country Listings in the IMM. Penalties for knowingly mailing dangerous goods may include civil penalties pursuant to 39 U.S.C. § 3018 and criminal charges pursuant to 18 U.S.C. § 1716.

33. Limitation of Liability. (1) Priority Mail Express International, Priority Mail International, and First-Class Package International Service shipments mailed under this Agreement are not insured against delay in delivery. **Certification of Prices for the Global Reseller Expedited Package Contract
with [REDACTED]**

I, Karen Meehan, Manager, Director, International Pricing & Financial Reporting, United States Postal Service, am familiar with the prices for the Global Reseller Expedited Package Contract with [REDACTED]. The prices contained in this Contract were established by the Decision of the Governors of the United States Postal Service on the Establishment of Prices and Classifications for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates, issued February 7, 2019 (Governors' Decision No. 19-1), which established prices by means of price floor formulas.

I hereby certify that the numerical cost values underlying the prices in the [REDACTED] contract are the appropriate costs to use in the formulas and represent the best available information. The prices, resulting in a cost coverage of in excess of the minimum required by the Governors' Decision, are in compliance with 39 U.S.C § 3633 (a)(1), (2), and (3). The prices demonstrate that the Contract should cover its attributable costs and preclude the subsidization of competitive products by market dominant products. International competitive mail accounts for a relatively small percentage of the total contribution by all competitive products. Contribution from Global Reseller Expedited Package Contracts should be even smaller. The Agreement with [REDACTED] should not impair the ability of competitive products on the whole to cover an appropriate share of institutional costs.

DECISION OF THE GOVERNORS OF THE UNITED STATES POSTAL SERVICE ON THE ESTABLISHMENT OF PRICES AND CLASSIFICATIONS FOR DOMESTIC COMPETITIVE AGREEMENTS, OUTBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, INBOUND INTERNATIONAL COMPETITIVE AGREEMENTS, AND OTHER NON-PUBLISHED COMPETITIVE RATES (GOVERNORS' DECISION NO. 19-1)

February 7, 2019

STATEMENT OF EXPLANATION AND JUSTIFICATION

Pursuant to our authority under section 3632 of title 39, as amended by the Postal Accountability and Enhancement Act of 2006 ("PAEA"), we establish new prices not of general applicability for certain of the Postal Service's competitive service offerings, and such changes in classification as are necessary to implement the new prices.

This decision establishes new prices for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates. Domestic Competitive Agreements consist of negotiated service agreements with Postal Service customers for domestic services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Outbound International Competitive Agreements consist of negotiated service agreements with Postal Service customers for outbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Inbound International Competitive Agreements consist of negotiated service agreements with foreign postal operators or other entities for inbound international services that are categorized as competitive in accordance with 39 U.S.C. § 3642(b)(1)-(2). Other Non-Published Competitive Rates consist of rates not of general applicability that are not embodied in contractual instruments.

With respect to any product within the above categories, management is hereby authorized to prepare any necessary product description, including text for inclusion in the Mail Classification Schedule, and to make all necessary regulatory filings with the Postal

Regulatory Commission. [REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]
[REDACTED]

The Postal Accountability and Enhancement Act (PAEA) requires that prices for competitive products must cover each product's attributable costs, not result in subsidization by market dominant products, and enable all competitive products to contribute an appropriate share to the Postal Service's institutional costs. For agreements subject to this Decision, there are hereby established prices that will enable each agreement to cover at least 100 percent of the attributable costs for the relevant product and that conform in all other respects to 39 U.S.C. §§ 3632-3633 and 39 C.F.R. §§ 3015.5 and 3015.7. As discussed in the accompanying management analysis, the Chief Financial Officer (or his delegate(s)) shall certify that all cost inputs have been correctly identified for prices subject to this Decision and that all prices subject to this Decision conform to this Decision and to the requirements of the PAEA.

No agreement, grouping of functionally equivalent agreements, or other classification authorized pursuant to this Decision may go into effect unless it is submitted to the Postal Regulatory Commission with a notice that complies with 39 U.S.C. § 3632(b)(3). On a semi-annual basis, management shall furnish the Governors with a report on all non-published rate and classification initiatives, as specified in the accompanying Management Analysis. Not less than once each year, the Governors shall review the basis for this Decision and make such further determination as they may deem necessary. This Decision does not affect postal management's obligation to furnish to the Board of Governors information regarding any significant new program, policy, major modification, or initiative, or any other matter under 39 C.F.R. § 3.7(d), including where such a matter also falls within the scope of this Decision.

This Decision supersedes previous Governors' Decisions setting classifications and rates not of general applicability for competitive products; however, prices and classifications established under those Decisions may continue to be offered until the expiration of their terms, and contractual option periods and extension provisions that are included in the existing and future agreements can continue to be exercised.

ORDER

In accordance with the foregoing Decision of the Governors, the new prices and terms set forth herein for Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates and the changes in classification necessary to implement those prices, are hereby approved and ordered into effect. An agreement or other nonpublished rate and classification initiative is authorized under this Decision only if the prices fall within this Decision and the certification process specified herein is followed. Prices and classification changes established pursuant to this Decision will take effect after filing with and completion of any necessary review by the Postal Regulatory Commission.

Management Analysis of Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates

This analysis concerns the inbound competitive prices and classifications in the Domestic Competitive Agreements, Outbound International Competitive Agreements, Inbound International Competitive Agreements, and Other Non-Published Competitive Rates (collectively, "competitive instruments"). Competitive instruments are often negotiated with customers and foreign postal operators for better cost coverage, higher overall contribution, and improved service with respect to postal services classified as competitive. They may also arise from other sources, such as the Universal Postal Convention.

The cost coverage for each competitive agreement or grouping of functionally equivalent instruments (collectively, each "product") will be [REDACTED]

Each competitive instrument may have multiple price categories and negotiated components. Examples of such categories or components would be Priority Mail, Priority Mail Express, Parcel Return Service, Parcel Select, First-Class Package Service, First Class Package International Service, Commercial ePacket Service, Priority Mail International, Priority Mail Express International, International Priority Airmail, International Surface Air Lift, Inbound Parcel Post, Inbound Direct Entry, and Inbound EMS services. These or other categories may include other services that the relevant customer or foreign postal operator offers to its customers under differing terms, but that nevertheless are processed and delivered in the same manner within the United States Postal Service's network. Such instruments may also establish negotiated rates for services ancillary to such items and for customized competitive services developed for application solely in the context of the agreement.

established by these formulas should not interfere with competitive products' ability as a whole to comply with 39 U.S.C. §3633(a)(3), which, as implemented by 39 C.F.R. § 3015.7(c), requires competitive products to contribute a minimum percentage to the Postal Service's total institutional costs. Accordingly, no issue of subsidization of competitive products by market dominant products should arise from 39 U.S.C. §3633(a)(1).

The Postal Service shall submit a semi-annual report to the Governors. The report shall include information on the cost coverage for each agreement or initiative that has been executed under the authority of Governors' Decision 19-1. Agreements classified as non-published rates or rate ranges may be reported as a collective grouping; all other agreements or initiatives are to be reported separately. The report shall also include cost coverage information on any agreements and nonpublished initiatives established under previous numbered Governors' Decisions and Resolutions.

APPLICATION OF THE UNITED STATES POSTAL SERVICE FOR NON-PUBLIC TREATMENT OF MATERIALS

In accordance with 39 C.F.R. Part 3011, the United States Postal Service (Postal Service) hereby applies for non-public treatment of certain materials filed with the Commission in this docket. The materials pertain to an additional Global Reseller Expedited Package 2 (GREP 2) contract that the Postal Service believes is functionally equivalent to the GREP 2 baseline agreement filed in Docket Nos. MC2013-51 and CP2013-64. The contract that is the subject of this docket, the certified statement required by 39 C.F.R. § 3035.105(c)(2) for the contract, Governors' Decision No. 19-1, and related information are being filed separately under seal with the Commission. A redacted copy of the contract, the certified statement, Governors' Decision No. 19-1, and related financial information are filed with the Notice as Attachments 1, 2, and 3, and in separate Excel files.¹

The Postal Service hereby furnishes the justification required for this application by 39 C.F.R. § 3011.201(b) below.

(1) The rationale for claiming that the materials are non-public, including the specific statutory provision(s) supporting the claim, and an explanation justifying application of the provision(s) to the materials.

Information of a commercial nature, which under good business practice would not be publicly disclosed, as well as third party business information, is not required to be disclosed to the public. 39 U.S.C. § 410(c)(2); 5 U.S.C. § 552(b)(3) and (4). The

¹ The Postal Service informed the customer for the contract prior to filing a notice that the Postal Service would be seeking non-public treatment of the redacted portions of the contract. The Postal Service also informed the customer for the contract that it could file its own application for non-public treatment of these materials in accordance with 39 C.F.R. § 3011.204.

Commission may determine the appropriate level of confidentiality to be afforded to such information after weighing the nature and extent of the likely commercial injury to the Postal Service against the public interest in maintaining the financial transparency of a government establishment competing in commercial markets. 39 U.S.C. § 504(g)(3)(A).² Because the portions of materials filed non-publicly in this docket fall within the scope of information not required to be publicly disclosed, the Postal Service asks the Commission to support its determination that these materials are exempt from public disclosure and grant its application for their non-public treatment.

(2) A statement of whether the submitter, any person other than the submitter, or both have a proprietary interest in the information contained within the non-public materials, and the identification(s) specified in paragraphs (b)(2)(i) through (iii) of this section (whichever is applicable). For purposes of this paragraph, identification means the name, phone number, and email address of an individual.³

In the case of a GREP 2 contract, the Postal Service believes that the parties with a proprietary interest in the materials would be the counterparty to the contract, the

² The Commission has indicated that “likely commercial injury” should be construed broadly to encompass other types of injury, such as harms to privacy, deliberative process, or law enforcement interests. PRC Order No. 194, Second Notice of Proposed Rulemaking to Establish a Procedure for According Appropriate Confidentiality, Docket No. RM2008-1, Mar. 20, 2009, at 11.

³ Section 3011.201(b)(2) further states the following:

(i) If the submitter has a proprietary interest in the information contained within the materials, identification of an individual designated by the submitter to accept actual notice of a motion related to the non-public materials or notice of the pendency of a subpoena or order requiring production of the materials.

(ii) If any person other than the submitter has a proprietary interest in the information contained within the materials, identification of each person who is known to have a proprietary interest in the information. If such an identification is sensitive or impracticable, an explanation shall be provided along with the identification of an individual designated by the submitter to provide notice to each affected person.

(iii) If both the submitter and any person other than the submitter have a proprietary interest in the information contained within the non-public materials, identification in accordance with both paragraphs (b)(2)(i) and (ii) of this section shall be provided. The submitter may designate the same individual to fulfill the requirements of paragraphs (b)(2)(i) and (ii) of this section.

PC Postage Provider(s) (if the contract allows for and the customer intends to use a PC Postage Provider), and foreign postal operators.

The Postal Service maintains that customer identifying information should be withheld from public disclosure. Therefore, in compliance with 39 C.F.R. § 3011.200(b), rather than identifying the customer for the contract that is the subject of this docket, the Postal Service gives notice that it has already informed the customer, and the PC Postage Provider (if applicable), that have a proprietary interest in the materials for the contract that is the subject of this docket of the nature and scope of this filing and their ability to address their confidentiality concerns directly with the Commission.⁴

The Postal Service employee responsible for providing notice to the customer with proprietary interest in the materials filed in this docket is Ms. Amy E. Douvlos, Marketing Specialist, Global Business, United States Postal Service, 475 L'Enfant Plaza, SW, Room 5427, Washington, DC 20260-4017, whose email address is Amy.E.Douvlos@usps.gov, and whose telephone number is 202-268-3777.

As for foreign postal operators, the Postal Service provided notice to all foreign postal operators within the Universal Postal Union (UPU) network through an International Bureau Circular issued on December 21, 2020, that the Postal Service will be regularly submitting certain business information to the Commission. Some UPU-designated foreign postal operators may have a proprietary interest in such information. The circular includes information on how third parties may address any confidentiality concerns with the Commission. In addition, contact information for all UPU Designated

⁴ The Postal Service has provided a blanket notice to PC Postage Providers in light of the fact that these filings are fairly routine. To the extent required, the Postal Service seeks a waiver from having to provide each PC Postage Provider notice of this docket.

Operators is available at the following link, which is incorporated by reference into the instant application: http://pls.upu.int/pls/ap/addr_public.display_addr?p_language=AN.⁵

(3) A description of the information contained within the materials claimed to be non-public in a manner that, without revealing the information at issue, would allow the Commission to thoroughly evaluate the basis for the claim that the information contained within the materials are non-public.

In connection with its Notice filed in this docket, the Postal Service included a GREP 2 contract, financial workpapers, and a statement certifying that the agreement should meet the requirements of 39 U.S.C. § 3633(a), and a copy of Governors' Decision No. 19-1. These materials were filed under seal, with redacted copies filed publicly, after notice to the customer. The Postal Service maintains that the redacted portions of the contract, certification, Governors' Decision No.19-1 related financial information, and identifying information concerning the GREP competitive contract customer should remain confidential.

With regard to the GREP competitive contract included as Attachment 1, some customer-identifying information appears in the redacted sections of the agreement on page 1, in the article concerning notices, in the signature block, and in the footer of the agreement and its annex. This information constitutes the name or address of a postal patron whose identifying information may be withheld from mandatory public disclosure by virtue of 39 U.S.C. § 504(g)(1) and 39 U.S.C. § 410(c)(2). Therefore, such information is redacted.

⁵ To the extent required, the Postal Service seeks a waiver from having to provide each foreign postal operator notice of this docket. It is impractical to communicate with dozens of operators in multiple languages about this matter. Moreover, the volume of contracts would overwhelm both the Postal Service and the applicable foreign postal operators with boilerplate notices.

The additional redactions in the agreement protect information with specific impact on the customer, including negotiated contract terms, such as the minimum commitment agreed to by the customer, the percentage of cost increases that may trigger a consequential price increase, and the timing and manner in which the Postal Service might change prices under the contract.

The redactions in the Annexes of the contracts, other than those involving the customer's name, withhold the actual prices that are being offered to the customer in exchange for commitments and performance of its obligations under the terms of the agreement.

The redactions applied to the Governors' Decision and financial workpapers protect commercially sensitive information such as underlying costs and assumptions, pricing formulas, information relevant to the customer's mailing profile, business information of interested third parties, and cost coverage projections. To the extent practicable, the Postal Service has limited its redactions in the workpapers to the actual information it has determined to be exempt from disclosure under 5 U.S.C. § 552(b). However, in a limited number of cases, narrative passages, such as words or numbers in text, were replaced with general terms describing the redacted material.

To the extent that the Postal Service files data in future filings that will show the actual revenue and cost coverage of the customer's completed contract, the Postal Service will redact in its public filing all of the values included that are commercially sensitive information and will also protect any customer identifying information from disclosure.

(4) Particular identification of the nature and extent of the harm alleged and the likelihood of each alleged harm alleged to result from disclosure.

If the portions of the contract that the Postal Service determined to be protected from disclosure due to their commercially sensitive nature were to be disclosed publicly, the Postal Service considers that it is quite likely that it would suffer commercial harm. First, revealing customer identifying information would enable competitors to focus marketing efforts on current postal customers that have been cultivated through the efforts and resources of the Postal Service. The Postal Service considers that it is highly probable that if this information were made public, its competitors would take immediate advantage of it. The GREP competitive contracts include a provision allowing the Reseller to terminate its contract without cause by providing at least 30 days' notice. Therefore, there is a substantial likelihood of the Postal Service losing customers to a competitor that targets customers of the Postal Service with lower pricing.

Other redacted information in the contract includes negotiated contract terms, such as the minimum revenue commitment agreed to by the customer, sensitive business information including payment processes and mail preparation requirements, and the percentage of cost increase that may trigger a consequential price increase. This information is commercially sensitive, and the Postal Service does not believe that it would be disclosed under good business practices. Competitors could use the information to assess offers made by the Postal Service to its customers for any possible comparative vulnerabilities and to focus sales and marketing efforts on those areas, to the detriment of the Postal Service. Additionally, other potential customers could use the information to their advantage in negotiating the terms of their own

agreements with the Postal Service. The Postal Service considers these to be highly probable outcomes that would result from public disclosure of the redacted material.

The Governors' Decision and financial workpapers filed with this notice include specific information such as costs, assumptions used in pricing formulas, the formulas themselves, mailer profile information, projections of variables, contingency rates included to account for market fluctuations and the exchange risks. Similar information may be included in the cost, volume and revenue data associated with the agreement that the Commission may require the Postal Service to file after the expiration of this agreement. All of this information is highly confidential in the business world. If this information were made public, the Postal Service's competitors would have the advantage of being able to determine the absolute floor for Postal Service pricing. Unlike its competitors, the Postal Service is required to demonstrate that each negotiated agreement within this group covers its attributable costs. Furthermore, the Postal Service's Governors have required that each contract be submitted to the Commission with a notice that complies with 39 C.F.R. § 3035.105. Competitors could take advantage of the information to offer lower pricing to GREP competitive contract customers, while subsidizing any losses with profits from other customers. Eventually, this could freeze the Postal Service out of the relevant market. Given that these spreadsheets are filed in their native format, the Postal Service's assessment is that the likelihood that the information would be used in this way is great.

Potential customers could also deduce from the rates provided in the contract, from the information in the workpapers, or from the cost, volume and revenue data that the Commission may require the Postal Service to file after the agreement's expiration,

whether additional margin for net profit exists between the contract and the contribution that GREP competitive contracts must make. From this information, each customer could attempt to negotiate ever-increasing incentives, such that the Postal Service's ability to negotiate competitive yet financially sound rates would be compromised. Even customers involved in GREP competitive contracts could use the information in the workpapers, or the cost, volume and revenue data associated with the expired agreement, in an attempt to renegotiate their own rates, threatening to terminate their current agreements, although the Postal Service considers this to be less likely than the risks previously identified.

Price information in the contract, the Governors' Decision, the financial spreadsheets, and any cost, volume and revenue data concerning the contract filed after the agreement's expiration consists of sensitive commercial information of the customer. Disclosure of such information could be used by competitors of the customer to assess the customer's underlying costs, and thereby develop a benchmark for the development of a competitive alternative.

Information in the financial spreadsheets and any cost, volume and revenue data concerning this agreement filed after the expiration of this contract also consists of sensitive commercial information related to agreements between the Postal Service and interested third parties. Such information would be extremely valuable to competitors of both the Postal Service and third parties. Using detailed information about such agreements, competitors would be able to better understand the counterparty's underlying costs, and identify areas where they could adapt their own operations to be more competitive. In addition, competitors of the counterparty could use such

information to their advantage in negotiating the terms of their own agreements with the Postal Service. And competitors of foreign postal operators could use the information in the financial spreadsheets to understand their nonpublished pricing to better compete against them.

(5) At least one specific hypothetical, illustrative example of each alleged harm.

Identified harm: Revealing customer identifying information would enable competitors to target the counterparty or its customer for sales and marketing purposes.

Hypothetical: The identity of the customer that signed this GREP contract is revealed to the public. Another delivery service has an employee monitoring the filing of GREP competitive contracts and passing along the information to its sales function. The competitor's sales representatives could quickly contact the Postal Service's customer and offer the customer lower rates or other incentives to terminate its contract with the Postal Service in favor of using the competitor's services.

Identified harm: Public disclosure of the pricing included in the agreement would provide potential customers extraordinary negotiating power to extract lower rates.

Hypothetical: Customer A's negotiated rates are disclosed publicly on the Postal Regulatory Commission's website. Customer B sees the rates and determines that there may be some additional profit margin between the rates provided to Customer A and the statutory cost coverage that the Postal Service must produce in order for the agreement to be added to the competitive products list. Customer B, which was offered rates identical to those published in Customer A's agreement, then uses the publicly

available rate information to insist that Customer B must receive lower rates than those the Postal Service has offered it, or Customer B will not use the Postal Service for its expedited package service delivery needs.

Alternatively, Customer B attempts to extract lower rates only for those destinations for which Customer B believes that the Postal Service is the low-cost provider among all service providers. The Postal Service may agree to this demand in order to keep the customer's business overall, which the Postal Service believes will still satisfy total cost coverage for the agreement. Then, the customer uses other providers for destinations that are different than those for which the customer extracted lower rates. This impacts the Postal Service's overall projected cost coverage for the agreement, such that the Postal Service no longer meets its cost coverage requirement. Although the Postal Service could terminate the contract when the Postal Service first recognizes that the customer's practice and projected profile are at variance, the costs associated with establishing the contract, including filing it with the Postal Regulatory Commission, would be sunk costs that would have a negative impact on the GREP competitive product overall.

Identified harm: Public disclosure of information in the financial workpapers would be used by competitors and customers to the detriment of the Postal Service and foreign postal operators.

Hypothetical: A competing delivery service obtains a copy of the unredacted version of the financial workpapers from the Postal Regulatory Commission's website. The competing delivery service analyzes the workpapers to determine what the Postal

Service would have to charge its customers in order to meet the Postal Service's minimum statutory obligations for cost coverage and contribution to institutional costs. The competing delivery service then sets its own rates for products similar to what the Postal Service offers its GREP competitive contract customers under that threshold and markets its ability to guarantee to beat the Postal Service on price. By sustaining this below-market strategy for a relatively short period of time, the competitor, or all of the Postal Service's competitors acting in a likewise fashion, would freeze the Postal Service and associated foreign postal operators out of the markets for which the GREP competitive contract product is designed.

Identified harm: Public disclosure of information in the contract and the financial workpapers would be used by the counterparty's and its customer's competitors to its detriment.

Hypothetical: A firm competing with the customer obtains a copy of the unredacted version of the contract and financial workpapers from the Postal Regulatory Commission's website. The competitor analyzes the prices and the workpapers to assess the customer's underlying costs, volumes, and volume distribution for the corresponding delivery products. The competitor uses that information to (i) conduct market intelligence on the customer's business practices and (ii) develop lower-cost alternatives using the customer's costs as a baseline.

Identified harm: Public disclosure of information in the contract and financial workpapers would be used by the competitors of the third party to the detriment of the Postal Service and/or the counterparty to the agreement.

Hypothetical: A firm competing with the interested third party obtains a copy of the unredacted version of the contract and financial workpapers from the Commission's website. The firm uses the information to assess the third party's revenue sources and growth opportunities, and thereby develop benchmarks for competitive alternatives. In addition, disclosure of such information could provide leverage to other parties in their negotiations with the Postal Service concerning financial arrangements that they may make with the Postal Service in the future.

Identified harm: Public disclosure of any cost, volume and revenue data concerning this agreement that the Commission may require the Postal Service to file after the contract's expiration would give competitors a marketing advantage.

Hypothetical: A competitor could use any cost, volume and revenue data associated with this agreement, which the Commission may require the Postal Service to file in this docket after this agreement's expiration, to "qualify" potential customers. The competitor might focus its marketing efforts only on customers that have a certain mailing profile, and use information filed after the contract's expiration to determine whether a customer met that profile.

(6) The extent of the protection from public disclosure alleged to be necessary.

The Postal Service maintains that the redacted portions of the materials filed non-publicly should be withheld from persons involved in competitive decision-making in the relevant market for parcel and expedited services, as well as their consultants and attorneys. Additionally, the Postal Service believes that actual or potential customers of the Postal Service for this or similar products should not be provided access to the non-public materials.

(7) The length of time for which non-public treatment is alleged to be necessary with justification thereof.

The Commission's regulations provide that non-public materials shall lose nonpublic status ten years after the date of filing with the Commission, unless otherwise provided by the Commission. 39 C.F.R. § 3011.401(a). However, because the Postal Service's relationships with customers often continue beyond ten years or decades, the Postal Service intends to oppose requests for disclosure of these materials pursuant to 39 C.F.R. § 3011.401(b-c).

(8) Any other relevant factors or reasons to support the application.

None.

Conclusion

For the reasons discussed, the Postal Service asks that the Commission grant its application for non-public treatment of the identified materials.
